

ROJO MACHINES FINLAND

ROJO 200 LC

Rojo 200 LC is our most popular mixer at refractory construction sites. This mixer is equipped with a glassfiber lid that has one spigot, bag cutter and an inspection hatch.

To guarantee the best possible mixing result the mixer is fitted with a beater and two mixing paddles. There is also a sidescraper which assists in keeping the drum side clean.

As with all our mixers, the Rojo 200 LC is also customisable according to customers needs. For example, the mixer can have a metal mesh lid if dust generation is not a problem or it can be fitted with forklift beams for easy maneuverability.

Rojo Machines Finland is specialized in dust free mixer design. Our mixers can be equipped with different add-ons that make the mixer the best choice for indoors, when dust-free mixing is a requirement.

Capacity:	200 kg of refractory monolithic
Electric motor:	5,5 kw 400V / 3-Phase / 50Hz, 47 rpm
Gearbox:	Planetary gearbox
Material:	S355 steel
Height:	144 cm
Drainage height:	62 cm
Weight:	500 kg
Width:	150 cm
Beater:	Ensures thorough and even mixture
Lid:	Glassfiber lid with one spigot, bag cutter and inspection hatch

BEATER:

The mixer is equipped with a beater that ensures the best possible mixing result, even with tougher materials.
