

ROJO MACHINES FINLAND

ROJO 230

Rojo 230 is our a popular mixer at construction sites. This mixer is equipped with a fibreglas lid that has one spigot, bag cutter and a inspection hatch.

To guarantee the best possible mixing result the mixer is fitted with four mixing paddles. There is also a sidescraper which assists in keeping the drum side clean.

As with all our mixers, the Rojo 230 is also customisable according to customers needs. For example, the mixer can have a metal mesh lid if dust generation is not a problem or for example it can be fitted with forklift beams for easy maneuverability.

Rojo Machines Finland is specialized in dust free mixer design. Our mixers can be equipped with different add-ons that make the mixer the best choice for indoors, when dust-free and precise mixing is a requirement.
