ROJO MACHINES FINLAND

ROJO 80

Rojo 80 is a compact pan mixer designed to mix the toughest concrete qualities. This mixer is made to withstand wear and tear. The mixingpan is manufactured from Hardox wear resistant steel and can handle very hard use. This feature is appreciated by companies hiring out construction machines.

The mixer is easy to clean and maintain. The paddles and mixing arms are bolted to the central bridge. The bridge is fixed by a big nut which can be opened by hand. The bridge, together with the paddle arms, can easily be lifted out from the mixing pan for easy cleaning.

The mixing pan itself can be mounted in two different positions. One for emptying the mix into buckets and the other for discharge into a wheelbarrow or pump. The versatility, robust construction and ease of maintenance, is unique to mixers of this size.

Capacity:	150 kg concrete/mortar/grout, 100 kg refractory castable
Electric motor:	3,0 kw /3-Phase/400V/50Hz, 44 rpm
Gearbox:	Planetary
Material:	Hardox 400, wear resistant steel
Height:	116 cm
Drainage height:	65 cm
Weight:	155 kg
Width:	76 cm, fits through normal doorway
Wheels:	Ø 250 mm, easily manoeuvered
Lid:	Metal mesh lid with bag cutter

MANEUVERABILITY:
There are handles on both sides of the mixer to allow easy manoeuvering by one man.

MAINTENANCE:
For easier maintenance the bridge that is holding the paddle arms can be easily lifted off, without using any tools.

EXTRAS:
The mixer can be made dustproof with different add-ons. This is very usefull when working in indoor spaces, where dust generation is a major problem.

SPARE PARTS:
All parts can be re-placed as a single item and are available from the manufacturer.
