

ROJO MACHINES FINLAND

ROJO 500

The ROJO 500 is designed for mixing refractory castables, of both conventional and low cement type. The size of the mixer is designed so that it can be filled with 500 kg big bags.

To guarantee the best possible mixing result the mixer is fitted with two beaters and two mixing paddles. If the beaters are not necessary for a specific mixing material they can be switched for two extra paddles. There is also a sidescraper which assists in keeping the drum side clean.

As with all our mixers, the Rojo 500 is also customisable according to customers needs. For example, the mixer can have a metal mesh lid if dust generation is not a problem.

Rojo Machines Finland is specialized in dust free mixer design. Our mixers can be equipped with different add-ons that make the mixer the best choice for indoors, when dust-free mixing is a requirement.

Capacity:	500 kg of refractory monolithic
Electric motor:	15 kW 400V/3-Phase/50Hz, 33 rpm
Gearbox:	Planetary gearbox
Material:	S355 steel
Height:	190 cm
Drainage height:	≥ 800 cm
Weight:	900 kg
Width:	150 cm
Beater:	Two beaters that ensure thorough and even mixture, can be changed for two paddles
Lid:	Fibreglas lid with one spigot, bag cutter and an inspection hatch

BEATERS:

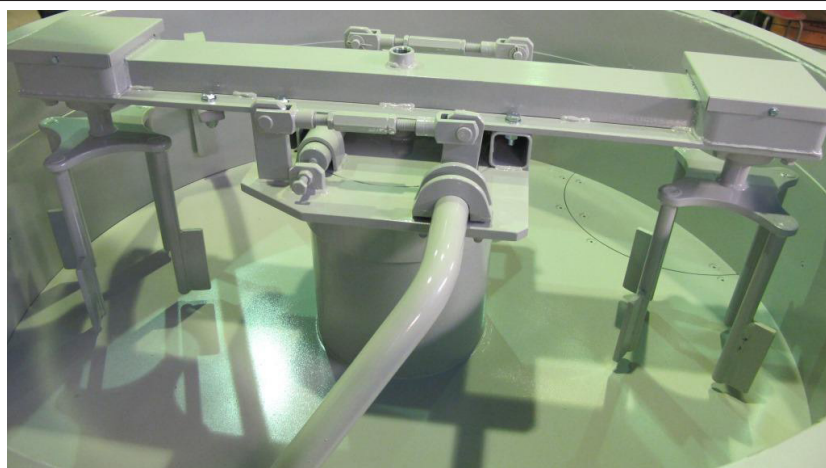

The mixer is normally equipped with two beaters that ensures the best possible mixing result, even with tougher materials. They help in creating a more smooth mixture, but they can be changed for paddles.

MAINTENANCE:

Easy access to all wearing parts and all of them are easily replaced.

SPARE PARTS:

All parts are easily replaceable and are available from the manufacturer. Wearing parts are kept in stock all the time to ensure shortest possible delivery time.

OPTIONAL EXTRAS:

The mixer can be equipped with an automatic water batching, a hydraulic hatch and a dust collection system.
